

TARC Minutes 20251110

Members introduced themselves with callsign and name. Members present were as follows:
AC4RW, KQ4SAM, WQ1H, N1SCS, KF4DGS, N4FJB, N4UFE, AE4AL, K4MJW,
W5LNX, KC5NMB, AA1AL, KN4UOC, KQ4HJL, KQ4IWR, KQ4IWH, AG4H,
KN4VZR, WX5GLK, KG4MPU, KQ4PYW (with one guest pending licensure:
Cole Vick)

KN4VZR gave an overview of the meeting agenda for tonight.

N1SCS informed everyone that it is cold.

AC4RW did not give financial report because he just got back from Birmingham and forgot to bring anything relevant.

KG4MPU is working on getting time to install the new 2m repeater amplifier that was purchased last month. DSTAR system seems to be functioning properly, as it was used quite a bit during last month's SET (Section Emergency Test).

AA1AL advised that nets are going well and that we are always willing to allow others to call the nets if they'd like.

KF4DGS thanked everyone who participated in the SET from last month.

KN4VZR gave a heads-up on upcoming events related to amateur radio (local events, contests, etcetera). Christmas Party will be on the usual meeting night at 6PM.

KN4VZR reminded everyone of the NCS schedule for the remainder of the year.

KN4VZR reminded us that the floor was open for 2026 Officer nominations. Nominees are as follows:
KN4VZR for President
AG4H and KF4DGS for Vice President
AC4RW for Secretary/Treasurer.

Votes were cast. AC4RW counted them in the presence of everyone, and the result is as follows:
our new Vice President is KF4DGS, Stan Lee.

KN4VZR reminded everyone that he sent out a message to all members via WinLink email and advised everyone to check that if able. He also mentioned that if any members would like to participate but need assistance to let him know.

KN4VZR gave an update on the 501(c)3 process. He's been in touch with UA legal folks and is waiting to hear back from them.

KF4DGS asked if anyone was interested in doing a Winter Field Day event again. Interest was there, so we'll work out the details at the January 2026 meeting.

AC4RW gave a presentation on "Intro to DMR" that everyone pretended to find useful.

Meeting adjourned.
